Federation of European Societies for Chemotherapy and for Infections

In cooperation with Humanitas PCO

4th SEEC

Chemotherapy and Infection

2013

15 - 17 November
Istanbul, Turkey

Dear Colleagues

It is a great honour to host and organise the 4th Southeast European Conference on Chemotherapy and Infection in Istanbul in November 2013.

On behalf of the International Society of Chemotherapy and Turkish Society of Antimicrobial Chemotherapy, other professional societies (Federation of European Societies of Chemotherapy and the Mediterranean Society of Chemotherapy) it is my privilege to invite you to one of the most beautiful city in the world - the bridge between Europe and Asia, Istanbul to join to the 4th Southeast European Conference on Chemotherapy and Infection. The conference will be held in the centre of Istanbul which we believe will give you a great opportunity to enjoy the magic of autumn in Istanbul while also experiencing an interesting and stimulating conference. The main purpose of the SEEC is to increase the knowledge on the treatment of infectious and oncological diseases in the Southeast Europe.

It aims to promote research in these fields and to give opportunity, particularly to young investigators, to present their research. These meetings are a great opportunity to establish cooperation among researchers in the region burdened with problems of limited resources and scientific productivity.

We invite everybody to participate in the 4th SEEC in Istanbul and to send in their scientific proposals and submit abstracts for posters and short communications to intensify the scientific discussion in the region to get new ideas and possibilities for collaboration in research but also in clinical practice for the benefit of our patients.

With the hope and belief in the future success of our mutual goals and a shared enthusiasm amongst all our organizing and scientific committees.

We wish you much success in your scientific work and look forward to seeing you in Istanbul at the 4th SEEC from November 15th to 17th, 2013.

Halit Ozsut, Conference President
